General Community Garden Information

The Community Gardens at Bransfield Park are available for seasonal rent @ \$30.00 per plot

All garden plots are 10' x 10'

Gardeners are assigned to plots on a first come, first serve basis. When registering online, please provide your first, second, and third preferred garden plots. Gardeners will be contacted by Parks & Rec with which plot(s) they will be assigned to once registered. If your preferred plot(s) are already taken, you will be asked to select from the remaining available plots.

A communal hose will be left by the Parks & Recreation Department on the water spigot next to the horseshoe pits. Please make sure the hose is ALWAYS turned off after use.

Gardeners are expected to bring their own seeds, plants, and tools during their gardening season. Communal tools will not be left at the gardens by the Parks & Rec Department.
